

## Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, Dec. 2.—Extension of the recent inquiry for minor or low priced rails was the noteworthy feature of today's short but active session. The last half of the session was enlivened by a brisk rise in metals, Utah Copper making a gain of four points, with one to two and a half in Chiles, Anaconda, Kennicott, Inspiration and Miami. There were substantial gains in specialties, with recoveries in shipping shares.

United States Steel manifested some heaviness but closed at a slight net gain. Investment rails were in moderate demand. Total sales of stocks 750,000 shares.

The bank statement fulfilled popular expectation by disclosing another actual loss of cash—about \$20,000,000—and another contraction of reserves reducing that item to \$41,000,000, the smallest total since the present system of returns came into vogue.

The bond market was stronger today in consequence of the improvement shown by international issues. Total sales par value \$2,570,000.

U. S. coupons were 1/2 percent lower on call during the week.

### METALS MARKET.

NEW YORK, Dec. 2.—Copper firm electrolytic first quarter 34. Second quarter and third quarter 32.50. Bar silver 75 1/2.

### CHICAGO GRAINS

CHICAGO, Dec. 2.—Uneasiness regarding virtually unfounded reports that efforts had been made to cancel the purchase of several million bushels of wheat intended for Great Britain put the bulls at a disadvantage. Although much of the consequent setback in prices was overcome, the market closed nervous 1/2 to 1c net lower, with December at 1.66 and May at 1.73 1/2. Corn finished 1/4 off to 1/2 up, oats from 1/2 to 1/4 down to 1/2 advance, and provisions varying from 42 decline to a rise of 10 cents.

Word that export sales during the last 24 hours would aggregate 2,250,000 bushels did a good deal to cause a substantial rally. Week-end evening-up of speculative trades helped today's recovery. Corn reflected the changes in wheat. Oats like corn, had little independence. Acquisition of land for Belgium formed something of a support for provisions. Otherwise, however, trade was only of a scattered nature.

(By L. J. Overlock)

BOSTON, Dec. 2.—Copper stocks have again started on the upgrade with weak holders now shaken out and stocks in strong hands. A big week is ahead for this class of securities. Copper is still selling at 33 1/2 cents a pound for the first half of 1917. Old Dominion and possibly St. Mary's will declare increased dividends next week which will make the copper at present levels look cheap.

Don't overlook the zinc stocks and especially American Zinc. Coal stock will also sell higher.

## MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts  
if Back hurts or Bladder  
bothers—Meat forms  
uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active. (Advertisement)

13,770 SHARES WERE SOLD IN ONE DAY LAST WEEK. MAKE RESERVATION THROUGH PHONE 743, OR YOU MAY BE TOO LATE.

## "Bisbee-Ajo is a Winner"

### BISBEE MEN ARE TO DOMINATE DESTINY OF GREAT RAY COPPER

Block of Stock of the Great Ray Copper Company Offered and Interest in Promotion is Large.

With officers and directors largely from Cochise county and with forty claims and several fractions which adjoin, in part, the property of the Ray Consolidated Copper Company and the Arizona Hercules Copper Company, the Great Ray Copper Company bids for favor on the markets of Arizona.

Advance information reaching the promoters of the company indicate that the first offering of the stock, all of which will come from the treasury of the organization, will go fast. Several people from Los Angeles have asked to have large blocks of the issue reserved and it is rumored that a New York broker desired to underwrite the entire issue of 200,000 shares.

Great Ray is bounded on the east and north by the Ray Consolidated Copper Company's holdings from which thousands of tons of ore have been taken and which comprise one of the most stable mines in the state of Arizona. The Arizona Hercules, one of the biggest of the Junior Coppers, also adjoins the property of the Great Ray. The forty claims and fractions, consisting of approximately 650 acres is located south and west of mineral creek and north of Sonora Town, near Ray. It is in a known mineralized section with geological conditions pointing to the finding of rich deposits of ore at a medium depth.

Arthur Leonard Flagg, a mining engineer of repute, after going over the ground in detail, reports, in part: The sum total of the factors to be weighed in estimating the probable value of the Sulphide Canyon group would seem to indicate that it has the highest prospective value of any group of claims in the Ray District outside of the Ray Consolidated and the Arizona Hercules properties.

This report is further augmented by details of prospect work which has been done on the property and which has led the engineers, who have investigated the group, to the conclusion that it stands remarkably good chance, with management and conservatism, to make a mine.

The officers and directors of the new concern include C. A. McDonald, president, cashier of the Citizens Bank & Trust Company, Bisbee; W. J. McGregor, vice-president, broker at Lowell; M. F. Tufts, secretary; J. P. Connolly, treasurer, assistant cashier of the Bank of Bisbee. Among the directors are John Gleeson, Gleeson, Arizona; John F. Ross and Bruce Stevenson, C. V. Manett is general counsel, A. L. Flagg is the consulting engineer, and F. A. Richard is the manager in charge of the property.

ORIGINAL BISBEE TOMBSTONE STAGE LINE

The original Tombstone stage leaves daily at 7 a. m. and 1:30 p. m. from Cochise Motor Co. Phone 444. Leaves punctually on time daily. 939 Advertisement.

### WILLIAM RUSSELL AS BIG INDIAN CHIEF IN "THE LONE STAR"

Mutual Masterpiece of Unusual Merit Is on the Boards at the Orpheum Theatre This Evening.

Another of the William Russell series of Mutual Star Productions is the Mutual feature offering today at

the Orpheum, "The Lone Star" it is title. It is five reels in length. It features this popular favorite in the role of an Indian chief. As a boy he sees his mother die because the Indian medicine-man is unable to drive out the "evil spirits" with which he alleges she is possessed. Shortly afterward he sees a white physician at work and marvels at the difference in treatment. He resolves to become a physician himself after becoming an interne at an Eastern hospital he meets and falls in love with a beautiful white girl. The girl's father, however, spurs the Indian suitor, rebuking him for daring to love a white girl. Later Lone Star

strips the mask from so-called "white civilization" and decides to return to his own people. The girl he loved is taken ill. Lone Star's surgical skill alone save her life. The father appeals to him for aid. Forgetting the taunts that have been heaped upon him, Lone Star ministers to her. Then stoically, he packs his grip and departs for the tepees of his tribe.

For sale, farm, 30 acres, cultivated, plenty water, alfalfa, six hundred fruit trees, five year old, 30 colonies bees, implements, 2 three-year old colts. A bargain. Terms. H. P. Merrill, Benson.—Advertisement.

## ARIZONA CHLORIDE COPPER

"It will make a big mine quick."—JOHN B. HUGHES, President.  
IT DON'T TAKE MILLIONS TO MAKE A MINE

The Tennessee, with a total investment reported to be less than ONE HUNDRED THOUSAND DOLLARS, has produced

IN THE LAST TWELVE MONTHS OVER

TEN MILLION DOLLARS—\$10,000,000.00

and is now earning \$480,000.00—Four Hundred and Eighty Thousand net per month. From four to seven 50-ton cars are shipped every day.

Go and see for yourself—examine the Tennessee ground. Then look at ARIZONA CHLORIDE—take samples—send them to your assayer—you'll be convinced that ARIZONA CHLORIDE will make another Tennessee.

You'll not have to wait years for mill construction at the cost of millions, for the blocking out of millions of tons of ore before smelter investment is advisable.

CHLORIDE ores run from \$50.00 to \$500.00 per ton.

CHLORIDE is building a big custom mill now.

### ARIZONA CHLORIDE

ores will be handled right on the ground—and according to the United States Government report the last shipment of ore from the property owned by the ARIZONA CHLORIDE ran 2 1/2 per cent Copper, 486 oz. Silver and 3 oz. Gold.

### ARIZONA CHLORIDE

Now Selling New York Curb 50c-51c.

owns free and clear of any incumbrance whatsoever, a property slightly larger than the Tennessee.

ARIZONA COPPERFIELDS, a property adjoining ARIZONA CHLORIDE, selling ten weeks ago on New York curb at 25 cents, is now selling \$1.50 bid, \$1.75 asked.

You'll pay much higher prices for ARIZONA CHLORIDE if you wait.
